

Brand Guidelines

MOBILE · SOPHISTICATED · ACCESSIBLE

The brand at a glance

Riverside Fairways brings the fairway to you. We're a fully mobile golf simulator, delivering premium entertainment to corporate events, weddings, parties and charity tournaments across Louisiana and the Mississippi Gulf Coast.

Brand promise

"We bring the fairway to you" — premium golf entertainment, anywhere, anytime.

Core values

- **Mobile-first.** We set up anywhere with electricity.
- **Luxury.** Premium experience, professional service.
- **Accessible.** No golf experience required.
- **Sophisticated.** Elegant and quality-focused.
- **Community-oriented.** Built for gatherings.

Who we're talking to

- Corporate events and team building
- Event planners, weddings and venues
- Families and social groups
- Golf enthusiasts looking for an alternative

What's inside

- Logo — page 3
- Color — page 4
- Typography — page 5
- Layout and components — page 6
- Voice and messaging — page 7
- Photography and iconography — page 8
- Checklist — page 9

Sophisticated without being stuffy. Everything in this guide serves that one balance: a luxury experience anyone can walk up to and enjoy.

Logo

The logo pairs an elegant script wordmark with an integrated golf flag. The script carries the sophistication; the flag carries the sport. Never redraw either — always place an approved file.

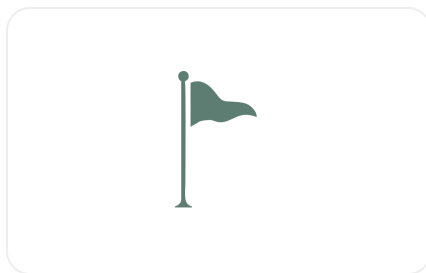

PRIMARY · ON WHITE

REVERSED · ON GREEN

IVORY · ON DARK GREEN

FLAG ICON

FLAG REVERSED

MONOCHROME · PRINT

Clear space & size

- Clear space equals the height of the golf flag, on all sides.
- Minimum width: 120px digital, 0.75in print.
- Flag icon alone: 120px minimum — avatars, favicons, app icons.

NEVER

- Stretch, compress or rotate the mark
- Recolor it or add shadows, gradients or outlines
- Place it on busy or low-contrast backgrounds
- Set the wordmark in a substitute typeface

Color

A moody sage green over ivory. Use at most two background colors in any one layout — white plus ivory, or ivory plus a single dark-green band.

Primary

Primary Green
#5A8F7B · rgb(90,143,123) · Pantone 16-1546 TCX
Logo, buttons, links, key UI

Secondary Ivory
#F5F1EB · rgb(245,241,235) · Pantone 12-0605 TCX
Page and section backgrounds

Accent & supporting

Light Green
#7BA691
Hover states only

Dark Green
#3D5D52
Headings, dark bands, footer

Warm Neutral
#D4C5B9
Borders, decorative

Neutrals & status

White
#FFFFFF

Medium Gray
#999999

Charcoal
#333333

Success
#22A06B

Warning
#E8A33D

Error
#D9534F

Contrast. Green on ivory 5.2:1 (AA) · Dark green on white 7.1:1 (AAA) · Charcoal on white 12.6:1 (AAA). Status colors are for feedback only, never decoration — and never pair green with red to carry meaning on its own.

Typography

Display — Cormorant Garamond

Headlines and section headings. Chosen to match the serif of "FAIRWAYS" in the logo lockup.

Body — system sans

-apple-system, Segoe UI, Helvetica Neue. All body copy, UI and labels.

Bringing the fairway to you

Corporate events & celebrations

Hierarchy

Heading 1

42px · 300 · +2px
mobile 32px

Heading 2

28px · 600 · +1px
mobile 24px

Heading 3

20px · 600

Body text — 50 to 75 characters per line.

16px · 400 · 1.6

Small text and captions

12px · 400 · #999

Letterspacing is the signature

Uppercase eyebrows and lockups echo the spaced F A I R W A Y S in the logo.

MOBILE GOLF SIMULATOR BRINGING THE FAIRWAY TO YOU

DO

- Follow the hierarchy
- Keep body text at 12px or larger
- Align left; line-height 1.4–1.8

DON'T

- Use script or decorative faces in copy
- Set paragraphs in all caps
- Justify text or distort letterforms

Layout & components

Spacing

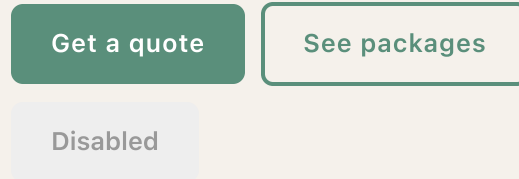

Everything is a multiple of eight: 8 · 16 · 32 · 64 · 96 · 128. Sections breathe at 96px vertical, 64px when tight. Container 1200px; prose narrows to 760px. Minimum tap target 44px.

Corners & borders

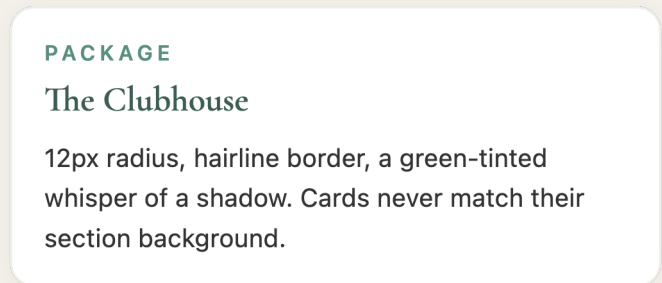

6px on controls, 12px on cards, 20px on large panels, pill on chips. Borders are hairline — 1px Light Gray on white, 1px Warm Neutral on ivory. Section headings in documents sit above a 3px green rule.

Buttons

Hover lightens to #7BA691; press darkens to #3D5D52. Nothing scales or bounces. On green fills and photography, use the white “reversed” button — a green button disappears.

Cards

Page rhythm

One hero per page, at the top. Sections alternate white and ivory going down; at most one dark-green band before the footer. The footer is always dark green with the ivory logo. Headers are transparent over a hero, solid white everywhere else.

Motion. 200ms color and background transitions on a standard ease; 120ms on small controls. Fades and color changes only — no bounce, no parallax, no entrance animations. Focus rings are never removed.

Voice & messaging

Friendly and approachable. Luxury and sophisticated. Casual and conversational — all three at once. Polished sentences delivered like a person talking.

How we write

- “You” and “we.” Contractions always.
- Active voice — “we’ll set up your simulator.”
- Lead with the differentiator: fully mobile, anywhere with electricity.
- Be specific: “14 additional games,” not “fun entertainment.”
- Paragraphs of three or four sentences, max.
- Oxford comma. Numbers one to nine spelled out.

WRITE THIS

“We’re fully mobile — we set up anywhere you’ve got electricity.”

“No golf experience required. That’s half the fun.”

“Tell us the date and the venue. We’ll handle the rest.”

Primary messages

- **Fully mobile** — no golf course required.
- **Premium experience** — championship-quality, professionally run.
- **Any event** — corporate, wedding, birthday, charity.
- **No experience needed** — fun at every skill level.

Calls to action

“Reserve your simulator today” · “Plan your perfect event” · “Get a quote now” · “Schedule a demo”

NOT THIS

“Your simulator will be set up by our team.”

“Leverage our turnkey entertainment solution.”

“DON’T MISS OUT!!!”

Off limits

Corporate jargon, passive voice, negative framing, assumptions about golf knowledge, politics of any kind — and any unverified claim about licensing, reviews or years in business. Emoji stay on social media; never in an interface, email or print. Say “golf simulator,” never “golf video game.” The tagline is *Bringing the fairway to you*, never reworded.

Photography & iconography

Photography

Professional, polished, people-forward. Close-up action or medium group shots. Bright, even lighting on faces. Controlled backgrounds. Natural saturation with a slight warm cast.

DO

- Real guests, genuine reactions
- Warm, inviting tones
- Faces large enough to read

DON'T

- Obvious stock, dark or moody lighting
- Cluttered backgrounds, competing logos
- Wide shots with tiny people

The green overlay

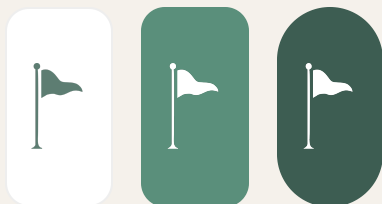

Any photograph carrying text gets Primary Green at 40% plus a bottom scrim. That green wash is the brand's most recognizable composition — white text never sits on a bare photo.

MOBILE GOLF SIMULATOR

We bring the fairway to you

Iconography

The golf flag from the logo is the brand's only true glyph — a list bullet, an avatar, an empty-state mark. It is cropped from the logo artwork, never redrawn.

No icon font, sprite or icon set has ever been defined for this brand. If a utility set is genuinely needed, use a simple line set at 1.5px stroke and flag the substitution — it is not a brand asset. Emoji are copy, never interface.

Before you publish

ELEMENT	CHECK
Logo	Approved file used · clear space equals the flag height · not distorted, recolored or shadowed · 120px / 0.75in minimum
Color	Exact hex values · at most two backgrounds in the layout · contrast tested · status colors reserved for feedback
Typography	Hierarchy followed · body 12px or larger · left-aligned · uppercase used only as an eyebrow, never for emphasis
Layout	8px spacing scale · one hero · alternating white and ivory · dark green footer
Voice	Friendly and specific · active voice · contractions · no jargon, no politics, no unverified claims
Photography	Real people, bright and warm · green 40% overlay behind any text · no dark or generic stock
Accessibility	WCAG AA contrast · 44px tap targets · focus states intact · color never the only signal
Approval	Reviewed against this guide · brand owner sign-off before publication
